EXPERIENCE

Senior UX/UI Designer
Jun 2024 – Present

Avala AI · Remote

- Lead all design as sole designer across AI dataset platform, marketing site, internal tools, learning systems, and annotator app
- Author PRDs and shape product roadmap in collaboration with engineering and operations leadership
- Rapidly design, develop, and ship production code using agentic AI workflows—continuously updating UI component library and shipping platform iterations
- Design complex annotation workflows for LiDAR, 3D spatial data, and multi-frame sequences
- Own brand design across investor decks, trade shows, merchandise, and collateral

UX/UI Designer
Nov 2021 – Apr 2024

Tesla · Hawthorne, CA

- Led global launch of responsive feature pages for Tesla.com across Energy, Support, and Investor Relations
- Designed mega menu and AI chatbot for Tesla.com, achieving 120% sales lead conversion increase
- Redesigned internal and enterprise apps for in-store advisors and energy installers
- Developed components and guidelines for Figma library and Tesla Design System

UX/UI Designer
May 2018 – Oct 2021

Accurate Background · Irvine, CA

- Created error-detection tool that automatically flagged background check inconsistencies, streamlining QA review
- Enhanced background check experience with improved IA and streamlined ID verification

UX/UI Designer
Aug 2020 – Sep 2021

INDI EV · Los Angeles, CA

- Established the UI and design system for INDI EV's first electric car's IVI
- Worked with animator to create demo reel shown within vehicle during LA Auto Show
- Delivered high-fidelity prototype with key driver flows and vehicle control features

UX/UI Designer & Researcher
Apr 2019 – Sep 2019

Catalia Health · Remote

- Led team of 4 in designing a HIPAA-compliant community app for heart failure patients
- Conducted user research (interviews, card sorts, surveys) with 42 participants
- Delivered high-fidelity prototype tested with chronically ill patients
