LANGUAGES

English — Native

Mandarin (Chinese) — Proficient

ABOUT

Senior UX/UI designer, MHCI+D, based in Los Angeles with 7+ years of experience. Passionate about 0-1 product design, consumer experiences, and building systems at scale.

EXPERIENCE

Senior UX/UI Designer — Jun 2024 – Present

Avala AI · Remote

- Lead all design as sole designer across data annotation platform, native mobile labeling app, marketing site, internal tools, and learning systems, serving five distinct user types
- Design and ship production websites and UI in React using AI-assisted development workflows, maintaining WCAG-compliant accessibility, design tokens, and a scalable component library
- Design complex annotation workflows for LiDAR, 3D spatial data, and multi-frame sequences, driving measurable gains in efficiency
- Author PRDs and shape product roadmap in collaboration with engineering and operations leadership
- Own brand design and visual identity across investor decks, trade shows, merchandise, and collateral

UX/UI Designer — Nov 2021 – Apr 2024

Tesla · Hawthorne, CA

- Led global launch of responsive product and feature pages for Tesla.com, driving product discovery across Energy, Support, and Investor Relations
- Led design of mega menu across Tesla.com, improving content discoverability and scalability
- Led design of AI chatbot, boosting sales lead conversion rates by 120% after launch
- Led redesign of native iOS/Android in-store advisor app; contributed to enterprise and e-commerce apps for Energy Installers and Powerwall Parts Store
- Contributed to Tesla Design System with component guidelines and design tokens; presented design rationale to cross-functional stakeholders

UX/UI Designer — May 2018 – Oct 2021

Accurate Background · Irvine, CA

- Created compliance-focused error-detection tool that flagged background check inconsistencies, streamlining QA
- Enhanced background check experience with improved IA and streamlined ID verification
- Collaborated with overseas engineering teams to align on requirements and deliver platform improvements

UX/UI Designer — Aug 2020 – Sep 2021

INDI EV · Los Angeles, CA

- Led 0-1 design of the in-vehicle interface (HMI) for INDI EV's debut electric car, establishing UI and design system from scratch
- Delivered high-fidelity prototype with key driver flows and vehicle control features for LA Auto Show debut

UX/UI Designer & Researcher — Apr 2019 – Sep 2019

Catalia Health · Remote

- Led team of 4 in designing an accessible, HIPAA-compliant community app for heart failure patients
- Conducted user research (interviews, card sorts, surveys) with 42 participants
- Delivered high-fidelity prototype tested with chronically ill patients
